

January Outdoor Activities

Crows and Cranes

Age Range: All Ages

Supplies: 2 cones

Set Up: Set up 1 cone on opposite sides of the playing area, the cones are the teams home base.

Instructions: Split children into two equal teams. One team will be “crows” the other team will be “cranes.” Have the teams stand back-to-back facing their home base. A counselor will stand near the two lines of children so all players can hear the counselor. The counselor calls out either crows or cranes. If crows are called, they turn around and begin chasing the cranes. The cranes must run towards their home base before the crows tag them. If any cranes are tagged, they now become crows. The same applies when cranes are called. Play continues until everyone is on one side.
