

January Outdoor Activities

Fox and the Rabbit

Age Range: All Ages

Supplies: None

Set Up: None

Instructions: Select one player to be a fox, one player to be a rabbit without a home. The remaining players will split in half; half will be trees and the other half are rabbits hiding behind the trees.

The rabbit without a home is given a five second head start. The fox then begins chasing the rabbit. The rabbit should run behind a tree, crouching down to tag the rabbit hiding there. The tagged rabbit must then run from its hiding spot, while the first rabbit takes its place hiding behind the tree. The second rabbit runs from the fox and tries to find a new hiding place. The fox can only catch the rabbit that is not hiding behind a tree. If the rabbit is caught, new starting players, trees, and rabbits are selected.
