

May Outdoor Activities

Fireball

Age Range: All ages

Supplies: Cones, hula hoops and gaga balls.

Set Up: Arrange the hula hoops around the playing area placing 1 cone in each hoop. The number will depend on the number of children and the size of your playing area (as well as how many hula hoops and cones you have). You want at least one less hula hoop than you have participants, for example if you have 8 participants you might want 5 hula hoops, if you have 15 participants you might want 8 hula hoops.

Instructions: Have one player at each hoop and the remaining players sitting in a line off to the side. Each player's goal is to protect their cone. They can knock over other players' cones using the balls that you spread around. They can only throw the balls from inside their own hula hoop, but they may leave their hula hoop to retrieve a ball. Players may not touch or move the cones or hold them in place with their feet.

If your cone is knocked over by a ball, you are out. If you knock the cone over by yourself, you are out. You would set up the cone in the middle of your hula hoop and go sit at the end of the line. The first person in line would go to the station that you were at and the line would move down. The next time someone gets out, they go to the back of the line and the person who is in the front takes their station.
