

April Outdoor Activities

The Fox and the Eggs

Age Range: Kindergarten -2nd Grade

Supplies: None

Set Up: N/A

Instructions: One player is the fox and the others are Easter eggs. Before the game begins, each egg decides what color they are going to be and keeps that color choice a secret from the fox. The eggs then face the fox, who guesses colors one at a time. If the fox guesses a player's color, that player must run from their "basket" to the other side of the playing area. The fox chases the egg, if the egg makes it to the other side of the playing area without being tagged the egg can return to the basket and chooses a new color and play continues. If the fox tags the egg, the player becomes the new fox.
